

Architectural Precast Concrete in Florida

In 2017, to fulfill its core purpose of providing “Architectural Concrete Solutions for Exceptional Projects and Relationships”, Zoho Stone’s precast factory invested in a state-of-the-art computer-operated Skako batch plant that increased its capacity by greater than tenfold! At the same time, the company also brought in a highly experienced Director of Manufacturing with years of experience as a precast Plant Manager.

This investment in plant and people combined with our factory’s already well established national reputation for exquisite mold making and craftsmanship heralded the oft-requested and much anticipated introduction of our newest precast concrete product line: architectural precast concrete panels! Already, our factory has begun the process of certifying its innovative factory with the APA. Combined with its Cast Stone Institute certified cast stone product line and its architectural moldings GFRC capabilities, Zoho Stone’s factory is the only producer of comprehensive architectural concrete solutions and products in Florida and the only manufacturer of architectural precast concrete panels in Southeast Florida!!!

With its national award winning manufacturing team, our factory performs all aspects of the architectural precast concrete panel manufacturing process in house including production of form liners and mold manufacturing. In fact, the expert mold makers will produce form liners for other architectural precast panel manufacturers, as well.

Zoho Stone’s precast manufacturer is a wet-cast factory with expertise in white cement applications. With our highly advanced team of mold makers and mold making equipment, textures, colors, surface aesthetics, shapes, angles and designs are limited only by the imagination of the design team and our exceptional relationships! Whether modern or traditional, ornamental or functional, we can provide a turnkey solution from custom design assistance through installation including engineering, manufacturing, storage and transportation of architectural precast concrete panels for cladding your office building, high rise, garage, condominium or other exciting use.

Zoho Stone is ready to be YOUR complete architectural concrete solution! We look forward to building an exceptional relationship with you on your exceptional projects! Contact us for more details!
